Chief, Records Management Staff

13 December 1956

ORR Records Management Officer

Records Control Schedule 22-55, Item No. 266

1. It is requested that Control Schedule 22-55, Item No. 266 be amended as follows: Add "and 24,000" after "14,000" and before "group". This change is required in order that the description of the file series will be correct. The Special Support Branch assigns numbers from both the 14,000 and 24,000 groups to maps and charts produced by that branch.

2. Attached is a copy of a memo from the Special Support Branch requesting this change. As the other suggested changes involve only the volume of material, it is not necessary to make these changes. This information should be picked up at such time as the schedule is revised.
